DETAILED ACTION

Claim Rejections - 35 USC § 103

Claims 1-4 are still rejected under 35 U.S.C. 103(a) as being unpatentable over Sechi (Fig. 3) (of record) for reasons of record.

Response to Arguments

Applicant's arguments filed 8/31/2004 have been fully considered but they are not persuasive.

Examiner agrees to withdraw the rejections based on Franca-Neto in light of the applicant's argument. However, the rejections based on Sechi still stand. Applicant argues that Sechi is silent on solving flicker noise problems. Examiner totally disagrees with this statement. The tuning circuit 33 is designed to reduce the noisy generated by amplifier 21a and 21b. Applicant further argues that p-type FETs and NPN bipolar junction transistors are "art equivalent" devices is clearly technically incorrect. Again, examiner totally disagrees with this statement. It requires only routine skill in the art to replace the bipolar transistors with the p-type MOSFETs.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art Unit: 2817

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
